

# Driving Directions from SXM Airport to Caribbean Princess

From Juliana Airport first take the shuttle to pick up your rental car and then head east (left) 0.7 miles to the new bridge (called the Causeway) across the lagoon. The entrance to the causeway is at the **1<sup>st</sup> traffic circle** you come to.

After crossing the bridge make a left on the **2<sup>nd</sup> traffic circle** toward Marigot. (You've been driving about 6 minutes by now if there is no traffic). Stay on this road - Rue de Hollande - until you reach the **3<sup>rd</sup> traffic circle** at 0.96 miles... continue north through this circle toward Grand Case/Orient Bay... stay on this road another 1.18 miles until you reach the **4<sup>th</sup> traffic circle** and go straight through this one as well... You will stay on this road all the way to Orient Bay. It will have some pretty sharp turns and many curves but stay on this road. After 4.10 miles you will have passed through Grand Case and come to the **5<sup>th</sup> traffic circle**, turn right and in 0.87 miles you will come to the entrance to "Parc de la Village Baie Orientale" on your left.

After entering Orient Bay, stay on this road and as soon as it starts curving right the Esmeralda entrance will be on your left, then comes a tennis court - make the left just past the tennis court - you'll be heading toward the beach. Then, after about 2 blocks make a right. This road will lead you around... left and left again...to the parking lot and small office for Caribbean Princess on the right.

***Congratulations! You've found paradise!***
